Dear Colleagues,

It gives us immense pleasure to announce the first **MASTERCOURSE** in Radiation Oncology

Radiation Oncology **MASTERCOURSE** is exclusively meant for young radiation oncologists, students and registrars designed specifically with an idea to stimulate interactions regarding important contemporary issues in Radiation Oncology.

The first part of the course aims at providing the range of discussion that takes place during a case presentation in examinations in the presence of an expert panel and also sessions on contouring guidelines which discuss the complex and pertinent issues in head and neck and pelvic radiation therapy.

The second part of the course aims at stimulating the culture of clinical research among young Radiation Oncologists / radiation oncology registrars and post graduate students. The researcher presents a protocol to an expert panel where the credibility and feasibility of the protocol is evaluated by the panel and the best 2 research proposals get a prize.

Specification for research protocol

1. All protocols should have the following format (Maximum word limit 1200 words)
 - Introduction
 - Objective
 - Proposed Methodology
 - Proposed research questions
2. Eligible candidates are PG students in Radiation Oncology or Radiation Oncologist within 5 years of passing MD
3. All research protocols should be submitted on or before 28/3/11 to kaustee@gmail.com / rambha151@gmail.com
4. The expert panel will select the best 8- 10 protocols for presentation on 16/4/11 and the candidates will be intimated by email before 5/4/11
Chairpersons of selection committee - Dr.Subhashini John & Dr. Siddhartha Laskar
